⁽¹⁾ This statistics cover loans granted by financial sector entities residents in Portugal including, besides banks, savings banks and mutual agricultural credit banks, non-monetary financial institutions that grant credit, namely credit financial institutions, factoring and financial leasing companies, credit-purchase financing companies and mutual guarantee companies.

⁽²⁾ It includes securitised loans. It does not include written-off loans or potential loans.

⁽³⁾ The households sector includes sole traders and other individuals.

⁽⁵⁾ Discrepancies between the total and the sum of the parts are due to the rounding up or down after the geographical distribution of borrowers whose municipality is unknown (based on the structure of debtors correctly identified).
