Source: INE/DREM: Culture Statistics.

Note: (a) The museums survey was not carried out in 1999 because the statistical operation was being redesigned. From that year onwards data presented on museums fulfill the following criteria:

- Existence of at least one exhibition room or space;
- Opening for visitors (permanently or seasonally);
- Existence of at least one curator or advanced technician (including management staff);
- Existence of a budget;
- Existence of an inventory.

Conventional sign:

X - Value not available.
